

MOTHER TERESSA

Her life and work

By Alkistis Kosmidis

Her love for the poor and those who were in need!

- *Born in Skopje on August 27th 1910, Agnes Gonxha Bejaxhiu, spent her life with the poor in India. As a child, she was extremely kind and gentle and helped whoever she saw in need. At a very young age she made a promise to her father that she would always help others in need.*

The most important decision of her life

- *At the age of twelve, she made a decision to become a nun. Her ambition was to help all those in need.*

*“kind words can be short and easy to speak,
but their echoes are endless”*

Do small things with great love

- In the winter of 1948 she began her work by bringing hungry and dying people into a home where they could find love and care and finally die in peace.*

Never worry about numbers . Help one person at a time and always start with the person nearest to you!

Her love of people made an impression on everyone who met her as she took care of them in their suffering and pain.

Her work touched many!

My project about Mother Teresa!
