

The high speed is one of the main reasons for causing accidents on the road.

One solution for that problem is to follow road speed traffic signs.

The second biggest problem in road traffic is to talk to the mobile phone.

some solutions for that problem it is not to answer the calls during driving or using earphones.

to be drunk during driving can  
cause serious accidents

Finally, if you are tired, do not even get into the vehicle because the satiety reactions will be much more late than the usual

Finally always remember to wear your seatbelt.
